## PEACE CONFERENCE IS OPENED TODAY AT MINSK AMERICAN WARSHIPS ARE ORDERED TO THE BALTIC SEA

### BACK FROM RURAL DISTRICTS, HEALTH OFFICER RENEWS FIGHT ON RODENT

Dr. B. F. Austin Returns From  
An Inspection Trip Over  
the County.

### FEVER PREVENTION TREATMENT GIVEN

Number of Addresses Are De-  
livered by Morgan's Health  
Officer.

Dr. B. F. Austin, county health of-  
ficer, on his return here today from  
an inspection trip over the county, re-  
newed his fight on the rat.

He said:  
"During the Spanish-American war,  
the fact that the mosquito was the  
carrier of yellow fever, was made  
known, and by eliminating this mos-  
quito, yellow fever has been eliminat-  
ed, and there is another variety of  
mosquito known to carry malaria.  
Body house fly, carrier of typhoid  
fever. But of all the carriers of dis-  
ease there is none that equals the  
rat in destruction of food and prop-  
erty, while at the same time, it is  
the carrier of one of the deadliest  
diseases known to mankind.  
We hope to see the time when those per-  
sons who maintain breeding resorts  
for rats on their premises, will be  
locked upon with the same disfavor  
which now greets those who harbor  
vermin of a supposedly lower degree."  
Now, that the rat is absolutely  
worthless, has nothing to justify its  
being and does not have one redeem-  
ing feature, why not get rid of him  
altogether? This can readily be ac-  
complished if everyone will do his  
bit; by starving the rat through the  
use of rat proof receptacles for food,  
and covered metal garbage cans; by  
depriving him of breeding places, and  
passage ways; by refusing him admis-  
sion to the comfort of your buildings,  
through rat proof construction, and  
demanding city anti-rat ordinances,  
and state anti-rat laws."

Vaccine Given  
During the past week, Dr. Austin  
held meetings for school children at  
Massey, Six Mile and Ryan's Cross  
roads. There public meetings were  
held at Valhalla, Rocky Ford and  
Somerville and anti-typhoid inocula-  
tions were administered at Rocky  
Ford, Trinity and Fairview.

Next week Dr. Austin will give in-  
oculations at Massey, Somerville and  
Hartselle. The treatment is adminis-  
tered without cost to the patients.

### HOWELL IS NAMED TO FEDERAL OFFICE

LOCAL MAN APPOINTED ONE OF  
LAW ENFORCEMENT OFFI-  
CERS FOR STATE

C. E. Howell, formerly chief of  
police of Albany, has been appointed  
as one of the enforcement officers of  
the 18th or Prohibition amendment,  
with headquarters in Birmingham.  
The appointment was made Saturday  
in Birmingham, and according to Mr.  
Howell is effective from the time of  
appointment.

The new officer has his home here  
and was born and reared in this coun-  
ty. Prior to his election to the Al-  
bany police force he was for a number  
of years a Blacksmith in the local L.  
& N. shops where his services were  
valued. In the numerous campaigns  
waged in this county, when prohibi-  
tion was directly or indirectly an is-  
sue, Mr. Howell worked and voted for  
the enactment into law of stringent  
prohibition legislation. Mr. Howell  
has many friends in the cities of Al-  
bany and Decatur and throughout the

### Tennessee River Still Is Rising

There's no cause for worry as  
yet but yuh can't always tell! The  
Tennessee is still on the rampage  
and she's going strong. The steam-  
er John D. Wyker, which has  
plied back and forth through the  
surging waters for a number of  
years, has decided that the landing  
place was too near Swann Lake  
and suspended the daily routine  
until the river gets back into her  
banks.

According to the government ob-  
servatory the water has reached the  
mark of 16 feet, 2 inches and is  
still on the climb. The water at  
the Albany landing has joined  
forces with the Alabama Water  
Company and it is impossible to  
get to where the banks once were.

### ONE OF LARGEST GINS IN SOUTH IS BEING BUILT HERE

One of the largest cotton gins in  
North Alabama is nearing completion  
on Church street, Decatur. The gin  
is being erected by D. S. Echols and  
associates and will be ready for op-  
eration this fall, according to present  
plans.

The plant will be modern equip-  
ped with machinery of the latest and  
most improved type. It is expected  
to prove a great convenience to cot-  
ton growers of this section.

Announcement of the construction  
of a gin here adds another chapter  
to the development of the Twin Cities  
as a cotton center.

During the past few years the  
amount of cotton handled here has  
increased rapidly and now the local  
market is one of the most important  
in the state. With the increase in  
the cotton crop of North Alabama,  
local cotton men are expecting a busy  
season.

### BAPTIST HOSPITAL SITE IS SELECTED ON SEPTEMBER 13

The new Baptist hospital for Al-  
abama will be located on the Septem-  
ber 13, according to an announcement  
of Dr. J. R. Hobbs, pastor of the  
First Baptist church and chairman of  
the location commission for the hos-  
pital.

Dr. Hobbs has set September 13 as  
the date on which the location com-  
mittee will meet and go over its data.  
Several Alabama cities have asked for  
the hospital, including Albany.

Huntsville, it is understood, has of-  
fered a cash fund of 100,000 if the  
hospital is located there.

### Labor Protests Aid For Poland

(International News Service.)  
CHICAGO, Aug. 16.—The present  
Russian Polish conflict promises to  
cause as much divergence of opinion  
here as the world war it was indicat-  
ed today. While 100,000 Poles held  
a mass meeting here, urging aid for  
their country, the Chicago Federation  
of Labor adopted a resolution deman-  
ding a general strike if American  
military aid is furnished Poland.

work, are discharged.

### TENNESSEE HOUSE MEETS TO DECIDE SUFFRAGE FATE AS CHARGES ARE AILED

Alice Paul Declares Lines Weak-  
en After Visit of Rail-  
road Men.

SUFFRAGISTS CLAIMING  
PLEDGES OF MAJORITY

Governor Cox Again Requested  
to Take Firm Hand in  
the Fight.

(International News Service.)  
NASHVILLE, Tenn., Aug. 16.—An  
attempt to delay action in Tennessee  
until North Carolina can act on the  
19 amendment will be made by anti-  
suffragists in the Tennessee house.  
Following a morning meeting of the  
anti-suffragists, a round robin began  
circulating to this effect. The anti-  
claim 33 signatures to it. Antis claim  
they will secure 20 more signatures.

(International News Service.)  
NASHVILLE, Tenn., Aug. 16.—This  
day will either ratify or reject the  
Federal suffrage amendment. The  
house meets at 2 o'clock in its first  
session since Friday when the senate  
passed the ratification resolution. As  
soon as the house is called to order,  
the senate resolution will come up.  
If there is a quorum present, which  
this morning indicated, the suffrage  
men will make a determined effort  
to pass the senate resolution. Suff-  
rage leaders claimed the pledges and  
obligations of 52 representatives at  
least. They expect that if a majority  
of these stand firm, band wagon votes  
will increase the total to 75 or over.

### WARNING SENT COX

(International News Service.)  
WASHINGTON, Aug. 16.—Suffrage  
leaders today asked Governor Cox to  
investigate "corrupt influences" now  
at work against ratification in Ten-  
nessee. Warning has been sent him  
that the fight is lost unless immediate  
action is taken to circumvent these  
influences. Information received by  
the National Woman's Party has been  
laid before him. Senator McKellar  
and other Democratic leaders, on the  
ground yesterday, informed him that  
the situation looks hopeless and the  
danger is great that the ratification  
resolution will be brought before the  
house this afternoon and defeated.

"The situation is frightful," said  
Alice Paul, prominent advocate for  
ratification this morning. "According  
to our information representatives of  
the Louisville and Nashville railway  
appeared in Nashville yesterday and  
following their activities, men who  
were pledged to us deserted by the  
wholesale. If the resolution comes  
up today we have not the slightest  
chance."

### Miners Demand for Raise Is Refused

(International News Service.)  
CLEVELAND, O., Aug. 16.—Opera-  
tives today at a joint conference of  
the central competitive coal district  
refused to grant the demand for a  
wage increase of \$2 a day. They

ficient to equalize the pay of the day  
workers with that of men employed  
on a tonnage basis.

### Harding Planning Important Speech

(International News Service.)  
MARION, O., Aug. 16.—The big  
feature of the front porch campaign  
of Senator Warren G. Harding this  
week promises to be the gathering  
here Thursday of past and present  
members of the Ohio state assembly.  
The senator intimated today he in-  
tends to employ the occasion for the  
delivery of an address of more im-  
portance than any of his previous  
ones.

### SIREN'S BLAST WILL TELL LOCATION OF FIRES IN ALBANY; BEING INSTALLED

Signal Will be Placed in Metal  
Tower Atop the City  
Hall.

IT CAN BE HEARD AT  
FLINT ON STILL NIGHT

New Appliance Is Purchased by  
the City at a Cost  
of \$500.

The Albany Fire Department will  
be equipped with the most modern ap-  
pliance in fire signals used in the  
United States in the next few days.  
A huge siren has been purchased by  
the city and will be placed in a  
metal tower on the top of the fire  
hall. The siren can be heard as far  
as Flint on a still night and even  
with a thirty mile gale blowing it can  
be heard at a distance of two miles.  
The cost of the siren was \$500 and  
the metal tower is being built by the  
Decatur Cornice and Roofing Com-  
pany.

The signals for the city will be:  
West Albany—First Ward—One  
blast.

East Albany—Third Ward—Three  
blasts.

South Albany—Second Ward—Two  
blasts.

Central Albany—Fourth Ward—  
Four blasts.

"The only handicap to the Albany  
Department," said Fire Chief Sperry,  
"is that the number of men employ-  
ed by the department is limited to  
two and the pressure of the pump,  
alone, will require the strength of  
six. During fires the city has to de-  
pend on help from the Louisville and  
Nashville fire fighters if the flames  
get past them."

### MANY ARE KILLED IN IRISH OUTBREAK

SOLDIERS ARE ACCUSED OF FIR-  
ING ON CROWD OF EX-  
CURSIONISTS

(International News Service.)  
LONDON, Aug. 16.—Many persons  
were killed and wounded in a new  
outbreak of disorders that was report-  
ed from Ireland today. One soldier  
and four civilians were killed in a  
clash at Clonbanic, county Cork, when  
a crowd of civilians attempted to seize  
an aeroplane. A civilian was killed in  
a clash between soldiers and excursion-  
ists near Lurvan, according to a Cen-  
tral news dispatch. Sinn Fein lead-  
ers accuse the soldiers of precipitat-  
ing hostilities by opening fire upon  
excursionists.

### CONTINUE EFFORT TO FORM A LEAGUE FOR NEXT SEASON

Efforts to form a baseball league  
for next season are being continued  
by local fans interested in the pro-  
ject. Letters are being written this  
week by the fans to baseball enthu-  
siasts in Columbia, Huntsville, Shef-  
field and the Wilson Dam, asking  
their opinion regarding the possibility  
of forming a league composed of six  
or eight clubs in North Alabama and  
Southern Tennessee.

It is planned to ask the fans here  
to subscribe \$250 during the winter  
to be used as a fund for organizing  
an Albany-Decatur team next year.  
If the fund is subscribed a manager  
will be employed early in the year and  
instructed to assemble a winning com-  
bination.

vessel is one of the five dreadnoughts  
constructed under an appropriation of  
Congress in 1900. Another is the Vir-

being taken from the service at the  
Navy Yard.

### Florida Man Makes Perpetual Calendar

(International News Service.)  
JACKSONVILLE, Fla., Aug. 16.—A  
perpetual calendar, claimed to be ab-  
solutely accurate, has been invented  
by Robert Pentland. Announcement  
of his invention was made after press  
dispatches from Italy said an Italian  
had completed one which has set to  
rest a problem that has baffled sci-  
entist for centuries.

Pentland has had his device pro-  
tected by patents in America and  
foreign countries and he offers a sub-  
stantial reward to anyone who can  
find a flaw in its plan. The calendar  
consists of a circular revolving disk  
on which are arranged the centuries  
in numerical order, and which, when

Upon the result of this fight, many  
political observers believe will  
hinge the success of the Co-Roose-  
velt ticket in November. The Demo-  
cratic leaders predict success for their  
party.

house of commons this afternoon warned labor not to attempt a  
general strike as a means of preventing a new war.

"The policy of the council of action is similar to that of the  
government, but an attempt to dictate by industrial action strikes  
at the root of the constitution and will be resisted with all of the  
resources of the government," said the premier. The "council of  
action" is a committee representing the various branches of or-  
ganized labor.

clear to General Wrangel that if he makes further attacks against  
the Russian Soviet army he does it on his own responsibility,"

**THERE'S MONEY AND LOTS OF IT IN MOTHER EARTH**

Alabama's doors stand ajar to the homeseeker, the home owner, the farmer and all who would come and share our matchless prosperity. Iowa, Illinois, Tennessee and other states are driving hundreds and thousands of people this way for the reason that their \$600 and \$1000 acre farms are no better than our fertile lands. Quite naturally they are disposing of those high priced lands and are wisely investing their money in Alabama lands. Here in the glorious Tennessee Valley section of Alabama we claim the garden spot of the earth and of which Huntsville proudly and undisputedly is the happy capital. But far and beyond our borders there are other rich lands at low price. It's all in Alabama and after all the splendid commonwealth belongs to us as a whole people. Whenever and wherever a tract of Alabama land is developed the state as a whole is blessed. Therefore in addition to boosting our own Madison county and Tennessee Valley section lands we welcome the opportunity to say a kindly word in behalf of all agricultural Alabama and congratulate our people everywhere on their ability to get a slice of it. No longer does the story hold good that you must go west to make your fortune. That old argument was worn thread bare long ago. Here in Alabama, particularly North Alabama and South Alabama, the opportunity presents itself for the capitalization of great fortunes. There's money and lots of it in Alabama mother earth. Huntsville, Madison county and North Alabama are glad to have a part in this great program. Let's put it over.—Huntsville Daily Times.

**SWEET POTATO HAS VERY BRIGHT FUTURE**

As a money-producing crop, the lowly sweet potato, as a result of tests of government experts and others, has a very bright future. Already the government has developed successfully 96 products from the sweet potato, including both food and commercial products. The result of these tests is to place the sweet potato in front rank of the revenue producing crops of the nation and to greatly stimulate their cultivation.

The Sweet Potato bulletin says: "It has not become generally known that the sweet potato has a value beyond its splendid qualities as a food. But recent work by government agents and some specialists in large educational institutions reveals other commercial uses of this potato that gives to it a future almost without limit in its possibilities.

"It is interesting to note the work of an Alabamian in his research regarding the possibilities of the sweet potato—George W. Carver, dean of the Department of Research and Experiment Station of the Tuskegee Normal and Industrial Institute. This negro seems to be a wizard in his work with the sweet potato and his research work is attracting great interest in New England and in the South. Dean Carver has developed sixty-nine products from the "sugarspud" to date, and he says that he has others under way. These products have been thoroughly tested by chemists and pronounced successes.

"Here is a list of what this talented colored man has produced from the sweet potato:

Thirty dyes for woolen, cotton and

Four kinds of flour.  
Four kinds of meal.  
Two grades of coffee (one an "instant coffee," somewhat similar to Instant Postum).  
A chocolate compound.  
A rubber compound.  
Vinegar.  
Shoe blacking.  
Ink.  
Five kinds of library paste.  
Starch.  
Mock cocoanut.  
Breakfast foods.  
Three types of preserved ginger.  
Fourteen candies.  
Tapioca.

"The reported arrival of the L. & N. pay car today, does not mark a new era, in the matter of method in paying off the near two thousand men of the shops," said a well known Railroad man, but it's coming is regarded as a kind of safety appliance, for the prevention of possible frauds.

"On some roads, cases have been reported where men have received wage checks for long periods after they were either dead or out of the service for other causes. One case is reported, which is said to be a matter of court record out in one of the western states, of a section foreman, who for three years drew the money check of one of his former employees, who had been killed by a train. tion boss in question when found out was duly sued by the railroad and put on trial according to the story. As the case developed the accused man brought in affidavits and other evidence to prove that the wife and family of the dead section man had received every cent of the proceeds of the checks. The final results being that the benevolent boss came clear and also held his job with the railroad.

"Of course, as long as a man does not have to present himself in person to the official pay masters of the roads, there is a chance for collusion, though such is very rare and has never been even suspected locally, but because there are or have, been dishonest Railroad officials, the roads occasionally go to the extra expense of sending out a pay car as a precaution against wrong doing."

"The long and sometimes exciting series of campaigns for war loans at the L. & N. shops came to a finale Saturday with the delivery with interest checks of the last one of the Fifth Liberty Loan Bonds," said J. E. Blair.

"The thousands subscribed by the shop men to the Victory loan, were not so many as they signed up for when the real war loans were offered, and when the Four Minute men and other speakers appealed to their patriotism and their devotion to the cause which the American boys were defending. One of the most liberal subscriptions ever made by any set of Americans anywhere, was the more than \$150,000, the local shopmen put up to swell the 4th Liberty Loan to and beyond six billions of dollars.

"When that campaign was pulled off, you will recall that the Hun was about to enter the doors of civilization with their famous drive toward the channel ports and their final and futile attempt to take Paris. It was argued then, that an oversubscription to the 4th bond issue would do much to break the confidence of the Germans and shorten the war, and the shop men fell for it and acted in good judgment in doing so, as it is generally conceded now that America's victory in the biggest loan ever attempted broke completely the heart and the backbone of German opposition."

**Burton Lilles Painfully Hurt**

Burton Lilles, popular employee of the L. & N. shops, was painfully injured while at his work this morning. Mr. Lilles was slightly cut about the chest and thigh. He was caught by a set screw and thrown down. Dr. F. P. Petty attended the injured man.

to indulge in that gentle sport of  
crossing Forty-second. Not a cool  
material was left save only the pink  
Georgette of the stenographic busi-  
ness blouse silhouetted against the  
adding machine—and that has nothing  
to do with seasons, anyway, so it  
doesn't count.

But now, behold, New York, one  
diaphanous bunch of bouffant organdie!  
And every fingerie ribbon in  
town is showing, from Wall Street to  
Dyckman!

Organdie is on Broadway, extra  
short and puffy. Organdie's in the  
Public Library reading rooms on  
spectacled persons, with safety pin-  
fastening through their blouses and  
black stockings revealed between the  
place where the petticoat stops and  
the hem of the too long skirt begins.  
Organdie (slightly soiled) is on Four-  
teenth Street over Hamburg em-  
brodered pettiskirts.

And the wonder of the whole per-  
formance is that they're all wearing  
the self-same model. Brown or pick,  
raspberry-ice color or baby blue,  
mussed or pressed, there's that self-  
same, broad, two-foot hem, and that  
self-same organdie tash, the same  
cuffed elbow sleeve, and the same  
crossed-over berth.

Gadsden the guest of friends.

### The "Huns" in History.

Hodgkin in his "Italy and Her In-  
vaders" speaks of the Huns, prior to  
their European invasion. But for one  
somewhat disputed source of informa-  
tion, all is dark concerning them. That  
source is the history of China. If the  
Huns be the Hiong-nu, whose ravages  
are recorded in that history, then we  
have a minute account of their doings  
for centuries before the Christian era.

### Highly Honored.

A distinguished celestial, lecturing  
in American cities on things Chinese,  
addressed his Philadelphia audience  
thus: "I am indeed pleased to be with  
you. Week before last I had the  
pleasure of addressing the literary  
Boston. Last week I spoke before the  
proliferant of New York, and now I am  
glad to be among the sarcoptingi of  
Philadelphia."—From the World Out-  
look.

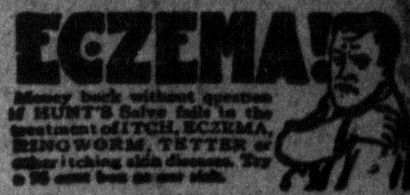

### Motor Busses to Holy Land.

"The Hamudiah company of Jeru-  
salem and New York," says Shipping,  
"recently shipped several motor  
trucks to accommodate 25 passengers  
the first of their kind ever sent to Pal-  
estine." So the holy city will soon  
begin to look like Fifth avenue! The  
day of the camel is passing, remarks  
the Outlook.

### His Guide Book.

"I must look in the book to see  
where I'll go on my vacation."  
"You mean a resort directory?"  
"No, my bank book."—Ruffalo Ex-

"Ziron Did Us Both Good," Writes Mr. Gentry, of Norene, Tenn.

It is a well-known medical fact, that iron is a necessary constituent of the blood, and that blood lacking iron is the cause of many troubles that only iron will cure.

Ziron, a scientific compound of iron with other valuable ingredients, is the remedy to take when your blood needs more iron, and your system requires a tonic. Ziron is mild and harmless, does not stain the teeth, and is good for children as well as adults.

Mr. P. G. Gentry, of Norene, Tenn.,

writes: "Ziron Iron Tonic has made good in my family. I have used it to a very great advantage to myself and my 14-year-old boy. It did us both good. I think it is a good medicine for what it is recommended."

If you are pale, weak, tired, feel down and out, take Ziron. It will put iron into your blood, and should help build you up.

Get a bottle from your druggist today, and give ZIRON a fair trial. Sold by him under a money-back guarantee.

with the Russians delivering powerful assaults against Radzymin, only ten miles to the north. The thunder of artillery fire was incessant. All of the foreign legations except the Italian, Danish and Lennish, have been moved to Posen. The Pole's lines, south-east of Warsaw, have been withdrawn.

The Poles have evacuated Brodey, which they captured in their short lived counter-offensive. A stem struggle is waging west of the city where the Russians are attacking the Polish defenses north of the Vistula river.

East of Warsaw, the Russians attempted to break through with shock troops. It is evident the Russians are making a supreme effort to take Warsaw before the armistice and preliminary peace negotiations get under way at Minsk. A feeling of gloom has followed the optimism that prevailed when the armistice delegation set out for Minsk Saturday morning. Official circles held out the hope Saturday that in a week "we hope to flash to the whole world by wireless, news of peace."

### Amusements

"SLAM-BANG JIM" AT THE  
STAR THEATRE TODAY

"Slam-Bang Jim," with William Russell as the star, is the screen feature at the Star today. The story, adapted from "Snap Judgment," is described as the snappiest, peppiest, fastest comedy-drama ever penned, beginning with a wedding which is

called off by the bride for reasons that concern the bridegroom, it breezes from New York to Arizona, where the hero finds himself entangled in a number of surprising affairs with a sheriff and another man's sweetheart. It is said to be as packed with laughs as a Charlie Chaplin comedy, though it sidesteps the ancient "slapstick stuff" that wears discriminating picture-goers. Francis Billington heads a supporting cast which enlists a number of unusually capable players.

## Albany and Decatur People

*—Maybe your friends and neighbors—out of employment. The greater the volume of business done by Albany and Decatur concerns, in all lines—the greater will be the volume of money kept in Albany and Decatur, the greater the number of people employed in Albany and Decatur.*

*The business houses of other cities contribute nothing to the maintenance of Albany and Decatur institutions. They sell nothing that cannot be bought in Albany and Decatur.*

## Pass the Summer in Finest Health

Take a teaspoonful of Dr. Caldwell's Syrup Pepsin when tired, dull or constipated. Quick results!

We cannot all spend the Summer in cool mountain resorts, and those who stay at home and sweeter through the hot days will find it necessary to be extra cautious about their health. Hot foods are easier to digest than cold, and even hot soup, though it overheats for the moment, is grateful to the system.

Above all, keep the bowels open; that in itself cools the blood and calms the nerves. But when the bowels are sluggish and show signs of constipation, take a teaspoonful of Dr. Caldwell's Syrup Pepsin and you will get quick relief. Syrup Pepsin is a combination of simple laxative herbs with pepsin which druggists have sold for a quarter of a century. It is the largest selling liquid laxative in the world.

Syrup Pepsin is the family doctor, the chief medicinal reliance of thousands of people in constipation and ill of the stomach, liver and bowels, in warding off colds, headaches, fevers and summer complaints. Mrs. R. B. Masters of 1424 Second Ave., Birmingham, Ala., has used it in her family for twelve summers, and she never misses an opportunity of telling her friends how healthy Syrup Pepsin has kept them. It has many uses these summer days.

**FREE** Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington St., Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

## ACROBATS DO DARING STUNTS WITH THE BIG SPARKS CIRCUS

Acrobatic stunts that require the greatest skill are among the features of the Sparks Circus which will arrive in Albany for a one day's visit on the Y. M. C. A. grounds, Friday, August 27. So well trained are the acrobats that some display of nimbleness is going on all the time the big show is in action. Other troupes of performers, working with wild animals and with horses have made them stand out as one of the distinctive attractions.

The big show will start with the two miles street parade thru the downtown streets. In this parade the cages of wild animals will all be open to view and the great collection of horses, elephants, camels, and other trained beasts will be paraded before the crowds.

The first performance starts at 2 o'clock, Friday afternoon. The doors will be opened at 1 o'clock and the crowds permitted to view the menagerie and horse fair. The performance lasts two and a half hours and is filled with thrills from beginning to end. The big delegation of clowns has devised many new stunts that appeal distinctively to the children. The circus has more clowns than ever before in its history and some of them are among the highest paid artists in America. The evening performance starts at 8 o'clock with a hour preceding to view the Menagerie.

## NEW REMEDY FOR UGLY HUSBANDS

A Calotab at Bedtime With a Swallow of Water—That's All. No Salts, No Taste, No Danger, Nor the Slightest Unpleasantness—Wake Up in the Morning Feeling Fine.

When your hubby gets cross, mean, ugly, nasty—a chronic grouchy, simply give him one of the nauseous Calomel tablets, the kind that do the work without the slightest unpleasantness. The next morning he will be the kind of husband he promised to be. Honest! I am not joking, it beats anything you ever saw for taking the meanness (biliousness) out of men and women, too. The next time you feel lazy, mean, blue, headachy or discouraged take a Calotab. One tablet at bedtime, with a swallow of water—that's all. No taste, no gripping, no salts, no sickening after-effects. You wake up in the morning feeling fine, your liver clean, your system purified with a hearty appetite for breakfast. Eat what you please and go about your business—no danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents. We have authorized your druggist to refund the price, if you are not perfectly delighted with Calotabs.—Advertisement.
